

EXECUTIVE SUMMARY OF CSR IMPACT ASSESSMENT REPORT

SoulAce
Path to Sustainability

SOULACE CONSULTING PVT. LTD.

CHAPTER 1

INTRODUCTION

ABOUT IRCON INTERNATIONAL

Ircon International Limited (IRCON), a “Navratna” Public Sector Enterprise, **incorporated by the Ministry of Railways, Central government, under the Companies Act, 1956 on 28th April 1976** originally under the name “Indian Railway Construction Company Limited”. It was created for the development of railways networks in India and abroad utilizing the expertise of Indian Railways. The Company has executed projects operated in the areas of Railway construction including New Lines, Doubling works, Rehabilitation & Gauge Conversion projects, Ballast less track, Electrification, Bridges/Flyover, Tunneling, Sub-Stations, Signal & Telecommunication as well as Leasing of Locos, Station building etc. Over the years, while keeping railway projects as its focus area, it diversified into a wider spectrum of infrastructure such as Highways & Expressways, Tunneling, Bridges, Metro, Power substation, transmission, Buildings (Industrial, Commercial & Residential), Townships, and Airport Runways & hangars and Mass rapid transit system.

Over the years, the company has extended its operations to other geographies including countries like **Algeria, Bangladesh, Iran, Iraq, Malaysia, Nepal, South Africa, Sri Lanka, Bhutan, Myanmar, Afghanistan, Syria, Turkey, Ethiopia, Tanzania, Mozambique, Zambia, Liberia, Nigeria, Indonesia, etc.** IRCON operates not only in highly competitive environments but also in difficult terrains & regions in India & abroad and is an active participant in prestigious nation building projects. During its 47 years of journey, IRCON has emerged as the front ranking construction company of international repute **having executed 401 landmark projects in India and 128 projects in 25 countries across the globe.** IRCON has executed many landmark construction projects in the last 47 years of its existence both in India and abroad. It has actively focused on becoming a diversified infrastructure player, both in terms of sectoral as well as geographical coverage.

PROJECT COVERAGE

CHAPTER 2

RESEARCH METHODOLOGY

Ircon commissioned SoulAce to conduct an impact assessment study to evaluate the immediate and enduring impacts of their CSR program. The impact assessment study was conducted in the fiscal year FY 2024-25.

OBJECTIVES OF THE STUDY

To evaluate the immediate and enduring impacts of the CSR program implemented by IRCON.

To assess the effectiveness of the program in achieving its intended goals and objectives.

To capture the short and long-term direct, indirect, and unintended impacts.

To identify strengths and areas for improvement in the program implementation process.

To provide recommendations for enhancing the program's impact and sustainability in the future.

USE OF MIXED METHODOLOGY FOR MAXIMUM INSIGHTS

The research problem pertained to assessing the impact of this initiative on local communities. The project's success lies in understanding how this initiative has positively influenced the lives of individuals within the local communities, including their economic well-being, social integration, and overall quality of life. It aims to measure the tangible and intangible benefits brought about by the initiative and evaluate its effectiveness in addressing the needs and challenges of the target population.

ENSURING TRIANGULATION

Triangulation was needed to increase the credibility and validity of the research findings. It was also a measure taken to ensure the trustworthiness of the research process. The findings of the quantitative research have been verified with the insights from qualitative research, and the report has also been structured to reflect this point.

PROJECT EVALUATION FRAMEWORK

After the collection of relevant information and perceptions through interviews, the OECD framework would be followed/applied. It has six evaluation criteria - relevance, coherence, efficiency, effectiveness, impact, and sustainability for each of the indicators.

SAMPLING FRAMEWORK

Sr No	Project	Implementation Partners	Districts and States	Total Beneficiaries	Sample Size	Stakeholders to be covered
1	Extension of Vision Centre in Aspristational Districts - Jaisalmer Rajasthan	Shree PCB trust	Jaisalmer, Rajasthan	11800 individuals	100	NGO Partners, CSR team, Patients, Local Community/ people, Healthcare Professionals
2	Installation of sanitary Napkin Dispensing machines and incineration for providing of free sanitary Napkins 2 girls' school	Women, Children Welfare and Rural Development Society	Jaisalmer, Rajasthan	2000 students	50	NGO Partners, Adolescent & Parents, Schools, Teachers, Principal and SMCs Community Members
3	Providing Essential Nutrient-rich food for 1000 women. Especially Pregnant ladies, and organise awareness camps	Parawaan	West Champaran - Bihar	1000 individuals	100	NGO Partners, CSR team, Pregnant and lactating, Mothers, Community People and Volunteers, Healthcare Professional
4	Providing Digital Literacy in 3 govt schools of Bettiah-West Champaran through the installation of computers	Akhand Jyoti Foundation	West Champaran - Bihar	1000 students	100	NGO Partners, CSR team, Trainers & educators, Parents and Students, Teachers, Principal & SMC
5	Tribal Health Improvement Programme at Chitrakoot District UP	Mahila Jagriti mandal	Chitrakoot district UP	4000 individuals	50	NGO Partners, CSR team, Patients, Local Community/ people, Healthcare Professionals
6	Eye checkup camps and spectacle distribution at Kaushambi District of UP	Shri Ganesh Deen Shiksha Samiti	Kaushambi District of UP	3037 individuals	50	NGO Partners, CSR team, Patients, Local Community/ people, Healthcare Professionals
7	Installation of 3 health ATMs in the govt hospital at Shravasti Dist of UP	Manav Vikas Sanstha	Shravasti Dist UP	2456 individuals	50	NGO Partners, CSR team, Patients, Local Community/ people, Healthcare Professionals

Sr No	Project	Implementati on Partners	Districts and States	Total Beneficiaries	Sample Size	Stakeholders to be covered
8	Providing Nutritional Food to visually impaired Girls at Bundelkhand UP	Drishti	Bundelkhand UP	100 girls	50	NGO Partner & Project team, CSR team, Girls and Parent/ Family, Healthcare Professional
9	Providing Health Services by setting up an affordable diagnostic centre at Jalna, Maharashtra	Eagle Livelihood Foundation	Jalna Maharastra	2,425 individuals	100	NGO Partners, CSR team, Patients, Local Community/people, Healthcare Professionals
10	Providing Skill development training in different trades to 2000 Youth in Aurangabad District - Maharashtra	Savali	Aurangabad District - Maharashtra	2000 youth	50	NGO Partners, CSR team, Trainers & educators, Parents and Students, Teachers, Principal & SMC
11	Proposal of nutritional & and health for improvement of Anganwadi centres in 10 villages of Jalna district	Saprem	Jalna district	500 Children from 10 Anganwadi	100	NGO Partners, CSR team, Pregnant and lactating, Mothers, Community People and Volunteers, Healthcare Professional
12	Conducting 53 Medical Consulting capas in rural and tribal Villages of J&K	Arogya Foundation of India	Rural and tribal Villages of J&K	8300 individuals	100	NGO Partners, CSR team, Patients, Local Community/ people, Healthcare Professionals
13	Providing educational equipment with furniture's and laptops for better education facilities in government schools at Banihal J&K	USBRL project office of IRCON	Banihal J&K	100 Students	50	NGO Partners, Parents and Students, Teachers, Principal & SMC
14	Providing Jain Arogyam Community Health Program for Pregnant women and also provision of Free medical checkups and medicine at Nuh District Haryana	BSGSS	Nul District Haryana	14435 individual	100	NGO Partners, CSR team, Patients, Local Community/ people, Healthcare Professionals

CHAPTER 3 PROJECT SUMMARY

3.1 Extension of Vision Center in Aspirational Districts - Jaisalmer Rajasthan

IMPLEMENTING AGENCY:

Shree Parmatma Chand
Bhandari Charitable Trust

SUPPORTED BY:

Ircon International Limited

PROJECT BACKGROUND

The PCB Trust, with support from Ircon International Limited, has launched an impactful three-month extension of the Vision Center operations in Pokaran block, Jaisalmer, Rajasthan. This project focuses on serving accessible preventive eye care by sensitizing awareness on eye care with an eye examination and providing essential surgical interventions for vision restoration, enhancing well-being and quality of life for underprivileged communities.

PROJECT DETAILS

 Year of Implementation	 Project Budget	 Total Beneficiaries	 Project Location
FY 2023-24 (Jan 2024 to Mar 2024)	₹10,00,000/-	100 Patients visited the Vision Centre, and 122 patients from camps (operative patients)	Pokaran Block, Jaisalmer District, Rajasthan

PROJECT ACTIVITIES

Providing routine eye checkups at Vision Centre.

Providing high-quality surgical interventions.

Providing support with Pre- and Post-Operative Care.

Providing preventive eye care with minor procedures and emergency services at Vision Centre.

Conducting awareness-building sessions on eye care, outreach camps for eye checkups, and identifying the need for surgical interventions for the larger population.

KEY FINDINGS

72.0%

Male representation as Vision Centre beneficiaries.

63.0%

Other backward class representation as Vision Centre beneficiaries.

41.0%

of the beneficiaries with an average monthly income of 10,000 to 20,000.

94.0%

of the beneficiaries got information about Vision Centre through friends and family.

KEY IMPACTS

86.0%

reported complete resolution of eye issues post-treatment, demonstrating the effectiveness of Vision Centre interventions.

97.0%

found facilities and equipment at the Vision Centre adequate, indicating robust infrastructure and resources.

72.9%

rated Vision Centre services as far better compared to previous facilities, indicating improved quality and satisfaction.

OECD-DAC RATING

Index: 5 Points - Very High ; 4 Points - High ; 3 Points - Moderate ; 2 Points - Low ; 1 Point - Very Low

3.2 Installation of sanitary Napkin Dispensing machines and incineration for providing free sanitary Napkins 2 girls' school

IMPLEMENTING AGENCIES:

Women Children Welfare and Rural Development Society

PROJECT BACKGROUND

Women Children Welfare and Rural Development Society (WARDS), Kishangarh, with the support of IRCON International Limited, New Delhi, has implemented a project to empower girls and promote menstrual hygiene in the Jaisalmer district. The project to install sanitary napkin vending machines and incinerators, along with providing free napkins at schools, aims to support rural, underprivileged girls by improving their menstrual hygiene and overall well-being. The project ensures that girls have access to necessary hygiene products and facilities, thereby promoting their health and enabling them to attend school more regularly and confidently.

PROJECT DETAILS

Year of Implementation

FY 2023-24

Project Budget

₹20,00,000/-

Total Beneficiaries

2,000 School Students

Project Location

- Shrimati Chhota Devi Gandhi GSS School, Pokhran, Jaisalmer
- Rajkey Balika Uchh Madhyamik Vidhlay, Jaisalmer Lalitpur (Uttar Pradesh)

PROJECT ACTIVITIES

Installing Sanitary Napkin Vending Machines and Incinerators.

Promoting Biodegradable Napkins.

Distributing Free Sanitary Napkins.

Creating Awareness Campaigns on Personal Hygiene.

Implementing measures supporting environmental protection and "Swachh Bharat Abhiyan."

KEY FINDINGS

96.0%

Increased Use of Sanitary Napkins- All participants transitioned from using clothes to sanitary napkins.

100.0%

attendance during training programs on menstrual hygiene, stating consistent training improved awareness and practices.

91.7%

adopted hygienic disposal practices.

100.0%

of respondents reported improved knowledge about menstrual hygiene.

KEY IMPACTS

100.0%

of respondents showed changes in behaviour by the practice of sanitary product usage.

100.0%

of respondents reported increased school attendance during menstruation.

Diverse sources ensured a continuous supply of sanitary products, such as 41.7% purchased, 33.3% from the CINI team, and 16.7% from UPHC/ASHA workers.

Training led to better health monitoring and management. 100% of respondents could identify signs of good and poor menstrual health.

3.3 Providing Essential Nutrient-rich food for 1000 women. Especially Pregnant ladies, and organise awareness camps

IMPLEMENTING AGENCY:
PRAVAH

PROJECT BACKGROUND

The "Provide Essential Nutrients Rich Food for Women" project, implemented by PravaH in collaboration with CSR partner IRCON International, aims to bolster maternal and child health by providing targeted nutritional support and dietary education. Targeting women of reproductive age in underserved communities, the project conducts workshops, distributes supplements, and facilitates healthcare access. This initiative aims to improve maternal nutrition, support healthier pregnancies, and raise awareness about menstrual hygiene, thereby contributing to overall community well-being.

PROJECT DETAILS

Year of Implementation
FY 2022-23

Project Budget
₹49,53,520/-

Total Beneficiaries
1,000 Women

Project Location
Patna, Bihar

PROJECT ACTIVITIES

Conducting nutritional awareness camps and providing dietary recommendations.

Facilitating linkages with Janani Suraksha Yojana and healthcare organisations.

Educating on menstrual hygiene through NGO, ASHA, and Anganwadi teams.

Monitoring and addressing symptoms requiring medical attention among adolescents.

KEY FINDINGS

73.0%

of adolescent girls received guidance on menstruation hygiene from NGO teams

79.1%

of adolescent girls identified symptoms needing medical attention.

65.5%

of respondents have completed at least secondary education.

24.6%

of families are linked with Janani Suraksha Yojana, enhancing maternal health support.

KEY IMPACTS

95.6%

of respondents are homemakers, benefiting from dietary and nutritional recommendations.

61.7%

of spouses are engaged in daily wage labour, contributing to family income and stability.

50.0%

of respondents were linked with Anganwadi centres, facilitating access to health and educational resources.

Underweight pregnant women reported improved health outcomes after nutritional support and guidance.

3.4 Providing Digital Literacy in 3 govt schools of Bettiah - West Champaran through installation of computers

IMPLEMENTING AGENCY:

Akhand Jyoti Foundation

PROJECT BACKGROUND

The Skill and Digital Literacy Project, led by the Akhand Jyoti Foundation in partnership with IRCON International Limited, targets rural areas of West Champaran, Bihar. This initiative aims to bridge the digital divide by establishing computer labs, training teachers, and imparting essential skills such as Microsoft Office applications and internet usage to students in three government schools. Additionally, the project includes career counselling sessions to guide students in exploring academic pathways and career opportunities. The goal is to empower marginalised communities, particularly youth and rural women, by enhancing their digital literacy and equipping them with vital skills for future success.

PROJECT DETAILS

Year of Implementation
FY 2022-23

Project Budget
₹22,00,000/-

Total Beneficiaries
100 Students

Project Location
Ramdayal Singh High School, Sitaram Plus 2 High School and Baba Haridas Nagar Sarswati Shishu Balika Vidyalyayas of West Champaran District, Bihar

PROJECT ACTIVITIES

Provisioning of Computer Hardware and Software.

Training of Teachers and Provision of External Trainers.

Establishment of computer labs in 3 school, equipped with screens and support devices, ensuring security and electricity backup UPS.

KEY FINDINGS

91.0%
of respondents learned how to operate computers, 72.9% mastered MS Office applications, and 60.1% gained internet skills.

79.8%
reported a very good understanding of computers, with 18.6% rating their understanding as good.

98.4%
experienced a positive impact from the new digital learning equipment.

KEY IMPACTS

Learning to operate computers and mastering software like MS Office and internet usage significantly improved digital literacy.

Substantial increases in the understanding of computers were reported, indicating effective learning outcomes.

Nearly all participants (98.4%) felt positively impacted by the introduction of new digital learning equipment.

The programs led to a substantial rise in student engagement and academic performance, evidenced by heightened interest in learning and participation in educational activities.

Career counselling sessions equipped students with clarity on academic pathways and career opportunities, empowering them to make informed decisions about their future.

3.5 Tribal Health Improvement Programme at Chitrakoot District UP

IMPLEMENTING AGENCY:

Mahila Jagrati Mandal

PROJECT BACKGROUND

The Tribal Health Improvement Project by Mahila Jagrati Mandal, supported by CSR partner IRCON International, aims to enhance health outcomes among underprivileged women in Manikpur, Chitrakoot. Led by MJM, the project addresses malnutrition and anaemia through health awareness camps, nutrition education, and sustainable practices like model kitchen gardens. It collaborates with local stakeholders for community involvement and sustainable impact.

PROJECT DETAILS

Year of Implementation

FY 2023-24

Project Budget

₹40,00,000/-

Total Beneficiaries

Approximately 4,000 individuals

Project Location

Chitrakoot (Uttar Pradesh)

PROJECT ACTIVITIES

Conducting 4 health awareness camps in villages.

Monthly health checkups and medicine distribution.

Identification and support for disabled individuals.

Establishment of model kitchen gardens.

Orientation of staff, PRI members, and volunteers.

Informal meetings for progress monitoring and feedback.

Facilitating job opportunities for unemployed women and men.

Advocacy and education on family planning and maternal health.

KEY FINDINGS

61.2%

of women benefited from regular nutritional awareness sessions, enhancing dietary choices.

89.6%

received regular follow-ups, ensuring ongoing health support and monitoring.

91.3%

were advised to include diverse foods like eggs, meat, and pulses, enriching their diets.

82.0%

practised proper handwashing before feeding, improving child health hygiene.

64.5%

could afford nutritious food to a larger extent, supporting healthier diets.

KEY IMPACTS

68.9%

observed significant improvements in their child's health due to interventions.

91.3%

incorporated nutrient-rich foods, potentially reducing malnutrition risks.

62.8%

consistently followed health processes, indicating sustained behavioural changes.

85.8%

covered food and water properly, promoting safer consumption practices.

66.1%

benefited from Nutrimix, enhancing overall nutritional intake within the community.

3.6 Eye checkup camps and spectacle distribution at Kaushambi District of UP

IMPLEMENTING AGENCY:

Shri Ganesh Deen Shiksha Samiti

PROJECT BACKGROUND

Shri Ganesh Deen Shiksha Samiti (SGDSS), with support from IRCON International, organised 10 eye checkup camps and spectacle distribution camps across the Kaushambi district in Uttar Pradesh. The program aimed to improve health services for rural and underserved communities. These camps provided free eye checkups, distributed medicines, and spectacles, and referred serious cases to nearby hospitals. 3,037 people participated in camps, with 1,000 spectacles distributed to those in need. The initiative focused on early detection and prevention of eye diseases, raising awareness about eye health, and reducing avoidable blindness.

PROJECT DETAILS

Year of Implementation
FY 2023-24

Project Budget
₹15,00,000/-

Total Beneficiaries
3,037

Project Location
Kaushambi
(Uttar Pradesh)

PROJECT ACTIVITIES

Setting up 10 camps across Kaushambi district to provide free eye examinations.

Providing necessary medications to individuals diagnosed with eye conditions during checkups.

Handing out 1,000 pairs of spectacles to participants in need.

Maintaining detailed records of all beneficiaries and the services provided.

Refer individuals with serious eye conditions to nearby government hospitals for treatment.

Organising Follow-Up Support Camps.

Promoting the camps to ensure a large turnout and raising awareness about the importance of eye health.

KEY FINDINGS

3,037
participants benefited from eye checkups.

1,000
pairs of spectacles distributed to those in need.

94.0%
of beneficiaries received essential eye examinations.

64.0%
reported far better services compared to previous clinics.

56.0%
received necessary medications.

50.0%
obtained prescription eyeglasses.

KEY IMPACTS

78.0%

of beneficiaries reported complete resolution of their eye issues.

86.0%

expressed a definite willingness to recommend the vision centre to others.

72.0%

suggested more specialised services for further enhancement.

66.0%

expressed a high likelihood of continuing to utilise the vision centre's services in the future.

Significant improvement in vision for 56% of participants.

3.7: Installation of 3 health ATMs in the govt hospital at Shravasti Dist (UP)

IMPLEMENTING AGENCY:

Manav Vikas Sanstha (MVS)

PROJECT BACKGROUND

The installation of Health ATM Machines in Community Health Centres (CHCs) across the Aspirational District of Shravasti, Uttar Pradesh, under Project AAROGYYA, represents a transformative initiative aimed at enhancing healthcare accessibility and services. Implemented by Manav Vikas Sanstha (MVS) in partnership with CSR partner IRCON International, this project integrates technology with healthcare delivery to benefit underserved rural populations. By strategically locating these machines within CHCs, the project aims to provide free and convenient access to essential health assessments and educational resources, thereby empowering communities to manage their health effectively.

PROJECT DETAILS

Year of Implementation
FY 2023-24

Project Budget
₹19,97,583/-

Total Beneficiaries
Approx 2,456

Project Location
Shravasti, Uttar Pradesh

PROJECT ACTIVITIES

Installation of Health ATM Machines in strategic locations within Community Health Centers (CHCs).

Implementation of educational programs to increase public awareness of health issues.

Regular maintenance and calibration of Health ATM Machines to ensure optimal functionality.

Training of CHC staff in operating and interpreting health reports from Health ATM Machines.

Continuous monitoring and management of health data collected by the machines.

Conducting community outreach programs to promote preventive healthcare.

Educating patients on the benefits and proper usage of Health ATM Machines.

Facilitating patient engagement through regular health checkups and consultations.

KEY FINDINGS

Health ATM machines facilitated free and timely health checkups, reducing travel costs, and waiting times.

Significant increase in regular monitoring of vital signs like blood pressure and blood sugar levels among rural populations.

Decreased reliance on distant hospitals for non-emergency care, enhancing local healthcare referrals.

Boosted awareness and education on preventive healthcare practices through accessible health assessments.

KEY IMPACTS

Reduced financial burden on patients and healthcare facilities by providing cost-effective health checkup alternatives.

Facilitated early identification and intervention of health issues, improving health outcomes, and reducing the severity of illnesses.

Fostered community participation in healthcare management and decision-making processes.

Forged effective partnerships between local health centres and stakeholders ensuring sustainable operation and maintenance of Health ATM machines.

3.8 Providing Nutritional Food to Visually Impaired Girls at Bundelkhand (UP)

IMPLEMENTING AGENCY:

Drishti

PROJECT BACKGROUND

The program implemented by NGO Drishti in partnership with Ircon International aims to provide nutritious food specifically to visually impaired girls in Bundelkhand, Uttar Pradesh. This initiative focuses on addressing nutritional needs and enhancing the well-being of visually impaired girls through targeted support and resources. The program plays a crucial role in improving the quality of life and health outcomes for marginalised communities, emphasising inclusive development and support for vulnerable groups.

PROJECT DETAILS

Year of Implementation

FY 2022-23

Project Budget

₹29,54,000/-

Total Beneficiaries

100 Blind Girls

Project Location

Bundelkhand, Uttar Pradesh

PROJECT ACTIVITIES

Distribution of nutritious food tailored for visually impaired girls.

Implementation of regular variations in the food menu to cater to diverse preferences.

Monitoring and evaluation of health outcomes such as improved physical performance, healthy weight management, increased energy levels, and enhanced immunity.

Conducting surveys to gauge participant satisfaction and feedback on the food provided.

KEY FINDINGS

PERCEIVED HEALTH IMPROVEMENT

85.0%

of participants noticed a positive change in their health after the introduction of the new food menu.

This indicates a significant improvement in the overall well-being of the beneficiaries.

SATISFACTION WITH FOOD QUALITY

91.0%

of participants reported being very happy with the change in the food they were receiving.

This high satisfaction level implies the success of the program in meeting dietary preferences and enhancing food quality perception.

KEY IMPACTS

Improved Energy Levels:
65% of participants experienced increased energy

Healthy Weight:
78% reported improvements in maintaining a healthy weight

Improved Physical Performance:
85% noted better physical performance.

Improved Immunity:
34% observed enhanced immunity

The high satisfaction rate (91%) contributes to improved quality of life and well-being among visually impaired girls.

3.9 Providing Health Services by setting up an affordable diagnostic centre at Jalna, Maharashtra

IMPLEMENTING AGENCY:

EAGL Livelihood Foundation

PROJECT BACKGROUND

The Affordable Diagnostic Center at Dashratbaba Multispeciality Charitable Hospital, established by EAGL Livelihood Foundation in partnership with CSR partner IRCON International, aims to significantly improve healthcare accessibility and services in Bhokardhan Block of Jalna District. This initiative focuses on providing comprehensive diagnostic facilities and healthcare interventions to benefit the local community, addressing healthcare needs across diverse demographics and socioeconomic backgrounds.

PROJECT DETAILS

			
Year of Implementation	Project Budget	Total Beneficiaries	Project Location
FY 2022-23	₹1,00,00,000/-	2,425 Patients	Bhokardhan Block in Jalna District of Maharashtra

PROJECT ACTIVITIES

				
Conducting regular health checkup camps in various communities.	Providing a range of medical tests such as blood tests, urine tests, X-rays, and ultrasounds.	Offering professional medical advice and consultations at the diagnostic centre.	Organising educational sessions on health, nutrition, and disease prevention.	
				
Assisting in the adjustment of medication dosages based on diagnostic test results.	Performing follow-up tests to monitor the effectiveness of prescribed treatments.	Providing guidance on dietary modifications and healthy eating habits.	Identifying and managing chronic health conditions like diabetes and hypertension.	Ensuring accessibility to free diagnostic services to reduce healthcare costs.

KEY FINDINGS

		
70.0%	68.0%	85.7%
of respondents used the diagnostic center for seeking medical consultation.	of respondents reported savings due to the free facility, either to a larger extent or to some extent.	of respondents who detected abnormal blood sugar levels sought medical advice.

KEY IMPACTS

56.0%

of respondents have undergone blood sugar level tests, indicating increased health awareness.

50.0%

of respondents reported significant or moderate overall health improvement.

75.0%

of respondents spend less than half a day travelling to the free diagnostic facility.

58.0%

of respondents made dietary modifications and adopted healthier practices.

60.0%

of respondents used test results for medication adjustment.

3.10 Providing Skill development training in different trades to 2000 Youth in Aurangabad District – Maharashtra

IMPLEMENTING AGENCY:

Savali

PROJECT BACKGROUND

SAVALI, supported by Ircon International under its CSR initiative, is implementing a vocational skilling project aimed at underserved youth in the Jalna district. The project focuses on imparting marketable and tangible skills through courses such as MSCIT/Computer Software and Hardware Training, Tailoring, Beautician, Gruhudyog and Marketing, and Video Shooting & Photography. The primary objective is to create a self-sustained training centre for the underprivileged population, creating financial independence among the youth by equipping them with employable skills.

PROJECT DETAILS

 Year of Implementation	 Project Budget	 Total Beneficiaries	 Project Location
FY 2022-23	₹1,00,00,000/-	2,000 Students (2,037 students as per report)	Javkheda, Bhokardan, Rajur, Jafarabad & Hasanabad Villages of Jalna District, Maharashtra

PROJECT ACTIVITIES

 Setting up a sustainable training centre for youth in slum areas.	 Building relationships with industries for job placements of trained youth.	 Connecting young entrepreneurs with microfinance institutions for financial support.	 Collaboration with similar organisations and corporations for support.
 Providing short-term courses in various skills to 2000 youth.	 Keeping detailed records of all project expenditures.	 Distributing certificates to participants upon completing their training.	 Helping trainees find jobs or start their businesses after the course.

KEY FINDINGS

 100.0% Completion Rate of both theory classes and practical training.	 100.0% satisfaction felt by students with the teaching, assessment.	 100.0% Distribution of certificates upon completion of the training program.	 HIGH JOB PLACEMENT SUCCESS Significant percentages of participants secured jobs or started businesses post-training.
--	--	---	---

KEY IMPACTS

ENHANCED EMPLOYABILITY

Equipped participants with skills directly applicable to job markets.

ECONOMIC EMPOWERMENT

Financial independence through job placements and entrepreneurial ventures.

COMMUNITY ENGAGEMENT

Strengthened community ties through skill-building initiatives.

EDUCATIONAL ADVANCEMENT

Contributed to lifelong learning and personal development among participants.

3.11 Proposal of nutritional & health for improvement of Anganwadi centres in 10 villages of Jalna district

IMPLEMENTING AGENCY:

SAPREM

PROJECT BACKGROUND

The project, implemented by SAPREM and supported by Ircon Limited, focuses on enhancing the health and educational outcomes for children in Anganwadi centres. The initiative aims to provide healthy meals, create a welcoming environment, and deliver early childhood education. It includes renovating the centres, organising community gatherings, and assisting local self-help groups in ensuring ongoing development. The project is designed to meet current community needs and ensure the well-being of children and their families.

PROJECT DETAILS

FY 2022-23,
FY23-24

₹47,73,930/-

500 Children from
10 Anganwadi

Bhokardan, Rajura, Jafarabad Villages
of Jalna District, Maharashtra

PROJECT ACTIVITIES

KEY FINDINGS

KEY IMPACTS

EDUCATIONAL BENEFITS

Improved learning outcomes - educational content on walls (28%), educational charts (24%).

PHYSICAL ENVIRONMENT

Enhanced safety and learning environment - new furniture (10%), repaired walls (10%).

HEALTH AND WELL-BEING

Positive impact on child health - satisfaction with food (96%), satisfaction with food hygiene (94%).

COMMUNITY SUPPORT

Increased involvement - engagement of self-help groups (24%).
