‘Project Manobal’ gets success

The government of India’s efforts to improve the mental health of the population have received a significant boost with the launch of the ‘Project Manobal’.

The project aims to address the pressing issue of mental health in the country by providing specialized services and counseling to individuals in need.

The launch of ‘Project Manobal’ is expected to have a positive impact on the mental well-being of the population, particularly in rural areas where access to mental health services is limited.

The project is a collaborative effort involving various government and non-government organizations, with the objective of creating a comprehensive mental health support system.

With the successful implementation of ‘Project Manobal’, the Indian government is taking a significant step towards ensuring the mental health of its citizens is prioritized and addressed effectively.
